

Agenda

OLD BUSINESS

1. Request for review of the Center Street corridor as it relates to traffic flow, speed, barriers for safety as well as sound, and pedestrian crossings.

11/15/2021

Director Martin stated that a group of residents of the Center Street corridor requested a review of the corridor as it relates to traffic flow, speed, barriers for safety as well as sound, and pedestrian crossings.

Kalb stated that he has traffic counts from Ohio Department of Transportation (ODOT) for Center Street from railroad tracks to Main Street and Tiffin Avenue from Blanchard Street to the split. Currently getting counts for Center Street. Director Martin stated the plan is to get traffic counts and analyze the data. Then discuss what next steps are. Are there things we can do or do we hire an outside source to do a traffic study? Kalb stated that looking at traffic counts from ODOT, on Tiffin Avenue east of Blanchard Street was 18,000 cars per day, on Center Street between the railroad tracks and Main Street was 8,000 cars per day. Kalb is working on ideas, but waiting for traffic counts to come in first. Director Martin stated that the recommendation is to table the request until we are able to get the traffic counts in and analyze the data.

Motion to table request, by Councilman Slough, second by Kalb. Motion passed 5-0.

12/20/2021

Motion to lift item from table, by Councilman Slough, second by Kalb. Motion passed 4-0.

Kalb stated that traffic counts on Center Street from Tiffin Ave. to Blanchard Street westbound was 300 vehicles and eastbound was 800 vehicles.

Looking at the safety of those travelling eastbound from S. Main St. and speeding over the railroad tracks to go straight to this area of Center St. Kalb drew up a sketch of what it would look like if a 90° turn was put in to enter onto Center Street at Tiffin Avenue rather than being able to drive straight through. There are no barriers available to slow people down in the area of the railroad tracks. The only thing to really do is to have a safety study done that will cost about \$100,000. Chief Ring suggested we try something more simple with signage that there is a curve ahead especially westbound. Kalb stated that traffic counts at Blanchard and Tiffin Avenue has 18,000 vehicles, and the railroad tracks to Main Street has 8000 vehicles. Director Martin asked if we should look at some signage before we make any significant changes. Kalb stated that in order to get any funding from the State to make changes, a safety study would have to be conducted.

Chief Ring stated that changing Center Street to a 90° turn will slow eastbound traffic, but will do nothing for westbound traffic where most of the issues occur with vehicles running into houses. Rayle asked if raising the pavement on the other side of the railroad tracks to make less of an incline over the tracks would help. Kalb stated that there is a lot of coordination with the railroad company that would need to be done. Kalb further stated that if that comes up in the safety study there is the potential to secure safety funds to pay for it. Director Martin stated that it all comes back around to a safety study. Kalb stated that it is a lot of money, but we collect a lot of data and are then eligible for safety funds.

Signage suggestions: dangerous curve sign with 25 MPH speed designation, chevrons on guardrails or reflectors.

Motion to install dangerous curve signs with railroad and a 25 MPH designation for both directions on either side of the railroad tracks on Center Street and to install chevrons on guardrails on Center Street near railroad tracks, by Chief Ring, second by Kalb. Motion passed 4-0.

Motion to table Center Street corridor discussion, by Chief Ring, second by Kalb. Motion passed 4-0.

2/22/2022

No action taken

3/21/2022

Kalb stated that a safety study is budgeted this year. The study is scheduled to be performed this fall.

NEW BUSINESS

1. Request of Becca Jones to make the intersection of Washington Avenue and Fairlawn Place a three-way stop for the safety of pedestrians using the existing crosswalk on the north side of the intersection.
2. Request of Dave Honse, Street Department Supervisor, to make the west side of Linden Avenue between Second Street and Third Street No Parking Any Time.

Hello;

My name is Rebecca Jones.

The reason for this email is to ask if we can get a stop sign placed on the corner of Fairlawn Place and Washington Avenue. It's a pedestrian crosswalk and I have been living here since 2018. The traffic is always speeding through after building up speed from 6th Street. I'm worried about the children who use the crosswalk both during school and summertime playing.

I thank you for your time and hope that you give this some consideration to slow traffic.

Mrs. Jones

No Parking Any Time on Linden Avenue between 2nd St. and 3rd St.
