NEW BUSINESS

Downtown Community Park: Mayor Muryn stated that Strand Associates has been selected as the City's consultant to help design a downtown recreation area in the area of the Phase II Benching project.

The Parks and Recreation Board and interested members of Downtown Findlay participated in a brainstorming session and gave feedback as stakeholders and potential users of the space of what they would like to see or what they would not want to see.

Strand Associates will compile all the feedback received into design concepts and bring back to the group to discuss.

Being no further business, the meeting adjourned.

Respectfully submitted,

Kathy Launder
City Clerk
