

## Agenda

### **OLD BUSINESS**

1. Request of James Gould for a “no parking here to corner” on Putnam Street eastbound near the intersection of Western Avenue.

Mr. Gould owns property at 721, 729, and 837 Putnam Street. He stated that since the apartments were built, there has been an uptick in parking on the south side of Putnam Street in the first block west of Western Avenue. In particular, there is an individual who parks their truck and trailer close to that intersection which makes it difficult for motorists, especially those hauling a trailer to pull up to the stop sign without being left of center. Regulations state that motorists are to park no closer than 30 feet from a stop sign. HONSE reported that the aforementioned truck and trailer is currently parked 32 feet from the stop sign. Director Martin stated that the apartments are required to have two parking spaces on site for each apartment. Engineer Kalb asked if we should get feedback from the homeowners at 703 and 709 Putnam Street before a decision is made. Captain Mathias stated that he will have the parking enforcement officer monitor the area in his daily rounds.

Motion to table request, have parking enforcement officer monitor the situation, and get feedback from homeowners of 703 and 709 Putnam Street before bringing back to Traffic Commission for consideration, by Engineer Kalb, second by Chief Eberle. Motion passed 5-0.

### **NEW BUSINESS**

1. Request of Brooke Weininger, Findlay Engineering Department, to remove the crosswalk on Western Avenue at Adams Street.
2. Request of Matt McVicker, 1908 Greystone Drive, for a “No Outlet” sign on Greystone Drive at Stonehedge Drive.

**Subject:** RE: Traffic Commission - Remove Crosswalk

The crosswalk initially served the school that was on Adams Street. The school is no longer there and this is not a safe location to cross Western Avenue. There is another crosswalk less than 200 feet North of Adams Street at W. Main Cross Street which is a safer place to cross Western Avenue.

Thank you,

**Subject:** Traffic Commission - Remove Crosswalk

Kathy,

We would like to remove the crosswalk on Western Avenue at Adams Street. Can this be added to the agenda for the next Traffic Commission meeting? Let me know what all you need from me.

Thank you,

Narrative (diagram attached):

On behalf of the property owners on Greystone Dr., south of the Stonehedge intersection, we would like the commission's consideration in installing "No Outlet" signs. Our cul-de-sac area sees a moderate amount of transient traffic mistaking our dead end for a route to Bluestone Dr. Upon drivers realizing the dead end, they quickly make their way to the cul-de-sac to turn around, before exiting north at high rates of speed. We have many children residing in this stretch of homes and are concerned about their safety. I have attached a basic diagram highlighting the area of concern. Please let us know if we can provide anything else in consideration of this request.

Thank you,

--
