Water & Sewer Committee Members

City of Findlay

The undersigned residents, home owners and business owners would respectfully like to ask that the cost of the sewer permit be waived (\$582 per home) for the upcoming Sanitary Sewer project that is to be completed this fall.

Since we have not asked that this project be done, we don't feel that we should be forced to pay this fee. We all live in or own what are primarily modest homes and businesses and request that this fee be waived due to the hardship that is going to be imposed by merely the cost of the excavating and plumbing for the laterals alone.

Respectfully, the undersigned:
